

Bone search for Sheriff

February 21, 1998
Lambs Canyon
1998-002

The Riverside County Sheriff's Dept. requested RMRU assistance in carrying out a search of a more unusual nature. A hiker, out walking in the hills of Lambs Canyon came upon what appeared to be human bone fragments. The Team was called in to help make a more thorough search of the area. Team members were successful in discovering some additional fragments. Unfortunately, the poison oak in the area also managed to find some of our team members. This is but one of the many hazards that accompany even the most "relaxed" missions.

RMRU is a volunteer search and rescue team that covers Riverside County and assists other teams with search and rescue efforts in other counties. Each member purchases their own equipment and takes time off work, without compensation, to participate in search and rescue missions. Team equipment is purchased from contributions from the community. We are a non-profit organization and are funded by [donations](#) from people like you.
