

Dehydrated female hiker - Skyline Trail

June 5, 2010
Skyline Trail
2010-014

Written by Editor

At approximately 10:15am RMRU was called to aid a woman who had been hiking the Skyline Trail and who had run out of water at approximately 5,000 ft. elevation. Due to extremely high temperatures RMRU did not want to risk team member getting into heat problems while approaching on foot. As two RMRU members prepared to respond to the subject in the RSO helicopter, rehydrate her, and fly her to a nearby medical facility, another helicopter pulled the subject out.

RMRU is a volunteer search and rescue team that covers Riverside County and assists other teams with search and rescue efforts in other counties. Each member purchases their own equipment and takes time off work, without compensation, to participate in search and rescue missions. Team equipment is purchased from contributions from the community. We are a non-profit organization and are funded by [donations](#) from people like you.
