TRAINING DAY AT THE TRAM: The weather co-operated enough so that the training was under slightly adverse conditions. The day turned out to be one of the best sessions that we have had in quite some time.

RESCUE: Nov. 26-27 - The Riverside Co. Sheriff's Dept. called at 1730 and requested assistance in locating a missing 16 year old boy. The mission was hampered by freshly fallen snow that covered footprints and stopped the Bloodhound. We searched all night and in the morning two Marine twin turbin H46 helicopters assisted in the search. The boy walked out at 0900 and was in fair condition.

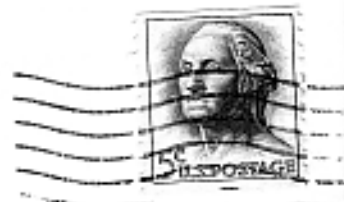

TRAINING MANUAL: Jim Fairchild has completed the first two pages of the new training manual and they will be reproduced and handed out at the meeting. We will try to have some new pages for every meeting in the future.
