FIRST AID FIELD PROBLEM: 1900 sharp on 20 March. Meet at the west end of Ninth St. in Riverside. The whole group will go through the gate at one time and it will be relocked. Come prepared for an injured victim on technical terrain in the Mt. Rubidoux area.

BOARD MEETING: 1900 on 22 March at Al Andrew's home. All members are welcome to attend any board meeting.

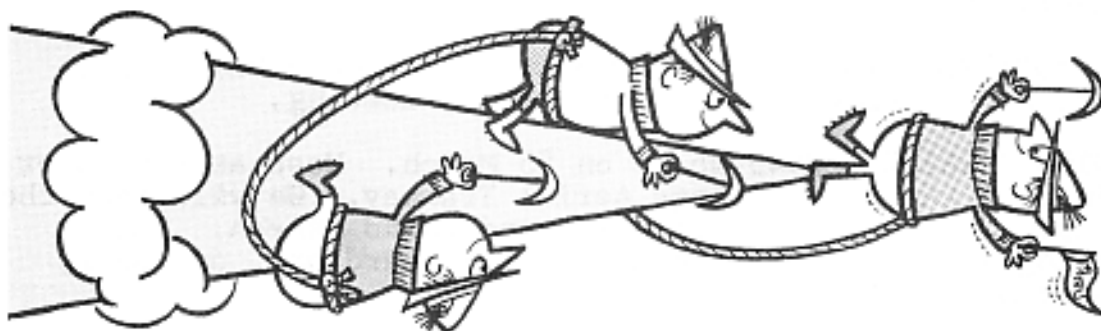

TRAINING SESSION: 0645 sharp on 25 March. Meet at the lower terminal of the Palm Springs Aerial Tramway. We will take the 0700 tram to the top and then descend Chino Canyon. The following equipment will be necessary: hard hat, day pack, crampons and ice axe.

REGULAR MEETING: 1930 on 29 March at Highland Outfitters, University & Orange Sts., Riverside. If you want to order any topo maps bring your list and money to the Quartermaster. Quartermaster Al will also have the new ground to air signal panels at the meeting. We can have a discussion session on down items if each member will bring all of his down gear: sleeping bag, parka, sweater, pants, mitts, botties, etc.

SCR-MRA WORKSHOP: Montrose S & R will host this workshop in the Angelus National Forest. All the teams in the Region and their members are welcome to participate. More details later.

FROM THE TRAINING CHAIRMAN: If you have not turned in your pink application form, please do so at the regular meeting.

FROM THE PRESIDENT: This years winter training session was our best yet. The turnout of almost 100% is a tremendous step in making us better. The search for the 3 year old boy at Lake Hemet was most frustrating and tragic, but I believe the team participated in a most professional manner. Everyone who participated in the mission knows that RMRU did everything it could and then some. Did anyone find a Large Kelty stuff bag?
